EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Specification:

Please amend the specification as follows:

On page 1, first paragraph please insert: --- This application is a 371 of PCT/EP03/08957 filed on 08/12/2003. ---

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not alone or in combination teach or suggest the instant method of treating multiple sclerosis comprising administering at least one compound selected from the group consisting of treosulfan, busulfan, dimethyl busulfan, pentasulfan and hepsulfam to a person in need of such treatment, said method not comprising stem cell transplantation. The alkylating agent treosulfan has previously been used in cancer therapy and the exact causes of multiple sclerosis are unknown and therefore it is not obvious to use the alkylating agent treosulfan in a method of treating a person suffering from multiple sclerosis. The closest prior art of Openshaw et al. (Biology of Blood and Marrow Transplants 2000, 6, 563-676) teach a method of treatment for people with primary or secondary progressive multiple sclerosis comprising a preparatory regimen of oral busulfan followed by stem cell transplantation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 18, 20, 21, 23, 24, 26, 27, 29, 30, 32, 33, 35, 36, 38, 39, 41, 42 and 44-56 are allowed.
